Womacks Casino and Hotel Management's Focus

- **Womacks has continued the effort to improve the customer experience and now has a total of 384 slot machines, approximately 69% of the total machines on the floor, which are Ticket In/Ticket Out (“TITO”) gaming devices. These upgrades should further improve customer service.**
- **Management uses points and coupons to attract customers with the expectation of increasing gaming revenue.**
- **The Company’s marketing strategy is tailored to compete by promoting the Gold Club in which patrons can earn rewards that can be redeemed for discounted or free meals, rooms, cash and other prizes. During 2006, 68% of play came from Gold Club members, compared to 67% during the same period last year.**
- **Despite declining revenues for the period, management was able to increase casino operating margins (net of promotional allowances) from 58.3% for the twelve months ending 2005 to 59.9% for the twelve months of 2006.**
- **The Company has not yet decided on the next phase of expansion, but owns all of the vacant property adjacent to the casino and is able to expand once it feels comfortable that the additional cost of the expansion will improve net earnings.**
- **Effective August 1, 2006, the Company hired a new general manager for Womacks. He comes with over 14 years of casino management experience in the state of Colorado, most recently serving as an assistant general manager of a large casino in Black Hawk, Colorado.**

Operational Results

- YTD net earnings growth and quarter over quarter net earnings growth, excluding the effect of exchange rate fluctuations (USD/RAND), was 17.0% and 31.1%, respectively. This growth is primarily the result of our marketing efforts, increased number of slot machines on the gaming floor, upgraded hotel rooms and a debt restructuring (see next bullet). To control food and beverage expenses, we have implemented a series of cost control measures. YTD Adjusted EBITDA and quarter over quarter Adjusted EBITDA have grown 20.8% and 25.8%, respectively.
- In an effort to reduce overall interest charges, the existing loan with ABSA bank was paid off in July 2005 with proceeds from a new \$9.4 million loan with Nedbank. As a result of the transaction, we lowered our effective interest rate on outstanding term loans from 16.9% to 9.0% at that time.
- We are in the process of subdividing approximately 450 out of 600 acres of this land, with plans to develop an 18 hole signature golf estate on the property with approximately 450 residential homes and to link this property to an existing nine-hole municipal golf course by adding another nine holes surrounded with resort housing elements.

Century Casino – Central City

On July 11, 2006 we opened our casino in Central City, Colorado

- 560 slot machines
- 8 table games
- 27 hotel rooms
- 2 restaurants
- 500 space parking garage
- 183 employees

Century Casino – Central City

Operational Results and Management's Focus

- The casino recorded a loss of \$370,000 in its second quarter of operation, primarily due to the write-off of \$351,000 (after tax) in equipment deemed unsuitable for the local market and interest charges incurred on the debt used to finance the project. The casino recorded negative Adjusted EBITDA of \$152,000 for the quarter.
- Casinos revenues have been increasing. Gaming revenues increased by \$437,000 over the opening quarter despite poor weather conditions and a traditionally slower quarter in Colorado.
- With the exception of certain one time opening expenses (including third quarter pre-opening expenses of \$105,000) and the write-off of \$567,000 (pre-tax) of equipment, the costs to operate the casino have been in line with our expectations. Management is currently reviewing various strategies to increase revenues and adjusted EBITDA at the property.
- Management has focused on the development of player club memberships, with results being better than expected. We now have approximately 44,000 players in our player club database. Our marketing strategy will be to focus on marketing directly to these players.
- The casino has 560 slot machines on the floor with room to expand in the future to 625 slot machines.
- In an effort to improve operating results, the casino has reduced the number of employees from over 200 at opening to approximately 150 as of December 2006 and has hired a new general manager.
